

ORTHOTIC FABRICATION SERVICES

- No plaster, no mess casting
- Light weight, low volume designs
- 48 hour turn-around
- Great customer service

Our unique semi-weight bearing casting technique insures accuracy, effectiveness and patient compliance. The plaster free process takes five minutes from start to finish and requires only a small toaster oven and an A.C.T.™ Impression Pillow. The A.C.T.™ Foot Impression Cores are provided at no charge!

Our lab uses Priority Mail® as our standard ship method and we provide the mailer boxes and labels for you. The turn-around time in the lab is normally one to two days and return Priority Mail® makes the entire process approximately 8 days (including the weekend).

One flat charge for Nylon shell models regardless of additions or accommodations* *. We offer numerous construction and material possibilities. This allows you to truly custom design the device for your patients. Our order form clearly outlines the design process and the material specifications are all listed on the back of the form.

Our staff prides itself on providing personal service for our customers. We are available to you on the phone virtually at any time during our normal operating hours. This personalized service insures you get the device you and your patients require.

Advanced Casting's amazing "TRY US" Offer:

We will make a pair of foot orthotics for you or your patient for free. Here is the deal:

We will send you an A.C.T.™ Impression Pillow, Instruction manual and four sets of Impression Cores and charge your credit card \$60 for the molding pillow. When you return the first set of molded cores, we will fabricate the orthotics and send them to you at no charge. If you decide to continue with us you simply use the A.C.T.™ Impression Cores we provide and we will bill you and add a Priority Mail charge for each pair you order. If you decide not to continue, you simply return the A.C.T.™ pillow and we will refund the pillow purchase price. It can't get any easier than that!
